

# How to?

## Semi Permanent Horse Tape Fence

### Why Use Electric Fencing for Horse Control?

#### SAFE

Horses remember the short, sharp but safe shock and develop respect for the fence.

#### HIGHLY VISIBLE

Gallagher electric fences are specifically designed to ensure maximum visibility for horses.

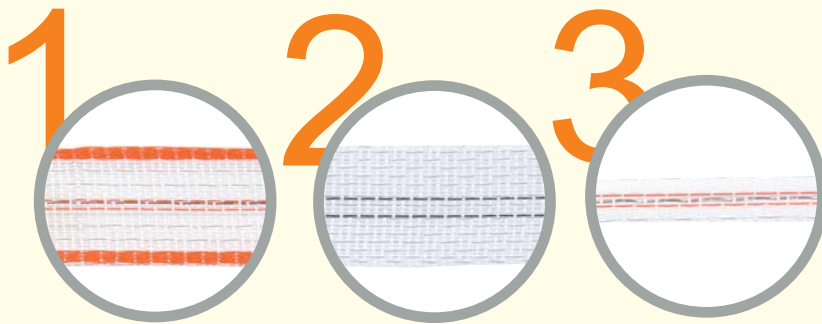

#### EASY TO INSTALL

An electric fence takes less than half the time to build compared to traditional fence systems.

#### ECONOMICAL

Electric fences cost as much as 50% less than traditional fences.

#### Fence Types:

Turbo Tape 40mm

Poly Tape 40mm

Turbo Tape 12.5mm

#### 1. Turbo Tape 40mm

- High visibility
- Ideal for **long** semi-permanent fences
- Aesthetically pleasing
- Resistance: 240 Ohms/km

#### 2. Poly Tape 40mm

- High visibility
- Aesthetically pleasing
- Resistance: 2400 Ohms/km

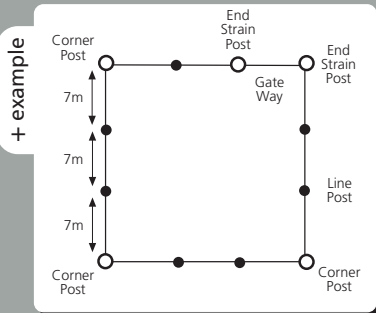

#### 3. Turbo Tape 12.5mm / Poly Tape 12.5mm

- Ideal for semi-permanent fences
- Resistance: 250 Ohms/km / 8500 Ohms/km

### What do I need to build my Horse Tape Fence?

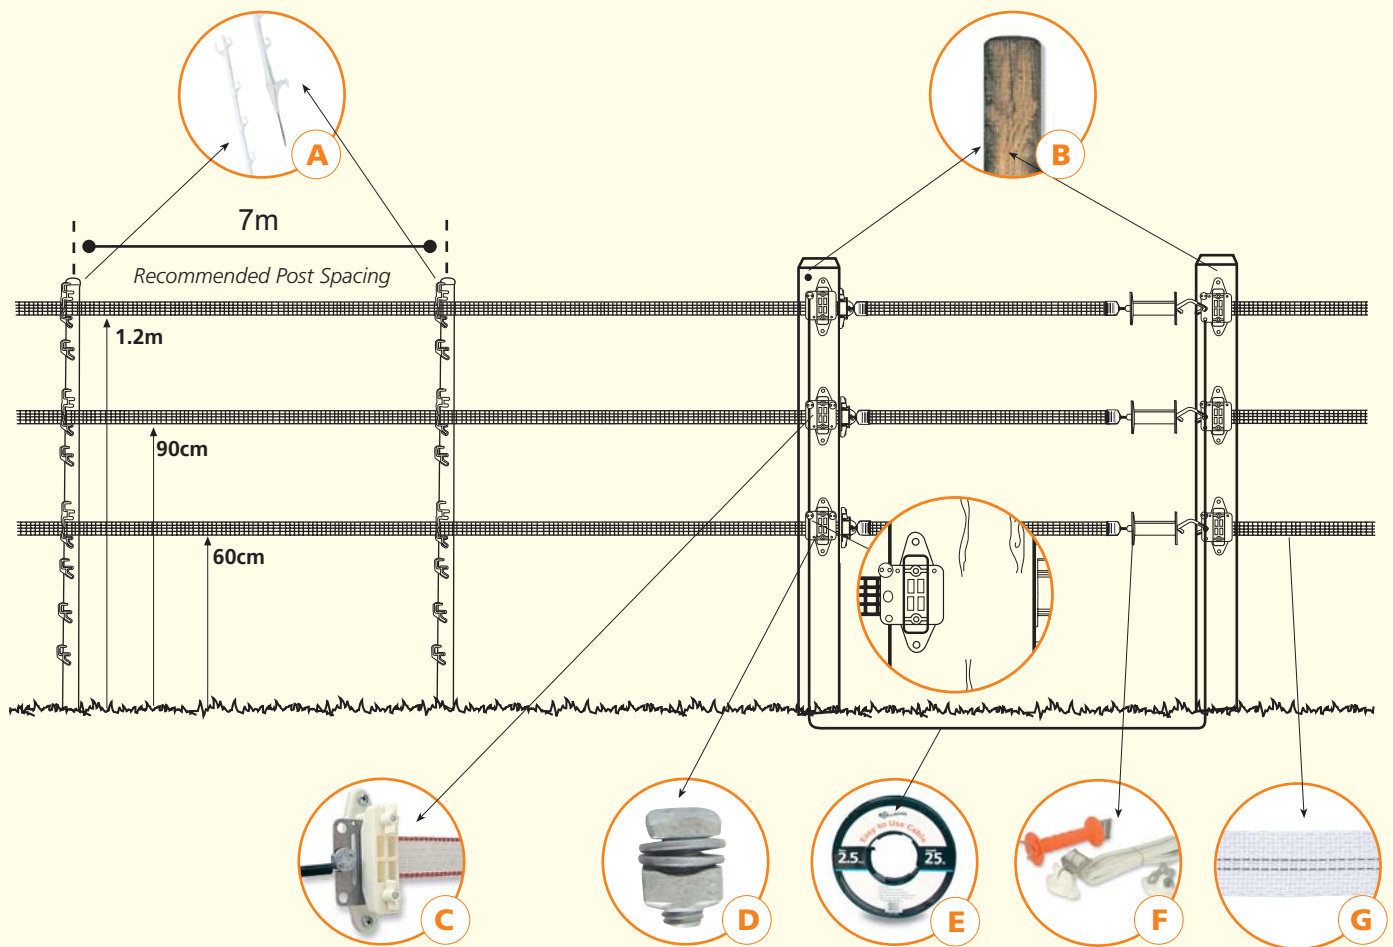

1. Draw a plan view of your paddock and estimate the number of posts you need.
2. Now fill in the table overleaf.
